APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of Cow Creek as heretofore granted under Permit 13607 is issued subject to the terms and conditions imposed in said Permit 13607 and with the understanding that no other rights on the source will be affected by the change proposed herein.

This permit to store 500 acre-feet of water per annum for irrigation on 255.86 acres of land is issued subject to all existing rights on the source and also subject to NRS 535.010. The proof of beneficial use and cultural map, when filed, must show the maximum amount of water stored and released during any one year, and the lands on which such water was used. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 500 acre-feet storage per annum. ~~500 acre-feet per annum~~ Duty of water from all sources not to exceed 4.0 acre-feet per acre irrigated.

Work must be prosecuted with reasonable diligence and be completed on or before March 3, 1984

Proof of completion of work shall be filed before April 3, 1984

Application of water to beneficial use shall be made on or before March 3, 1987

Proof of the application of water to beneficial use shall be filed on or before April 3, 1987

Map in support of proof of beneficial use shall be filed on or before April 3, 1987

Item #15 Remarks

The acreage listed under the proposed place of use has been fully cultivated and a cultural map developed, however, release flow measurements will not reflect the amount of acre footage needed to successfully irrigate this acreage until the seasonal runoff returns to normal. Historically, measurements have not been taken and we are therefore unable to determine the acre footage released from this reservoir for irrigation. Due to the uncertainty of future water years we are unable to determine the length of time it will take to prove beneficial use.
